### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ernie Beffel on 11/1/2005.

The application has been amended as follows:

Please cancel claims 15-18, 20, and 21.

2. The following is an examiner's statement of reasons for allowance: Applicant has claimed a two-step XML conversion process. The limitation of *generating context-insensitive XML retagged messages, the context-insensitive XML retagged messages having XML tags corresponding to the context of the context-sensitive messages* is distinguished over the prior art. Applicant's remarks filed 8/11/2005 were persuasive. In light of the specification, specifically Applicant's cited paragraphs 0010, 0015-0026, and 0033-0034, and paragraphs 0038-0041 and 0051 cited by the Examiner, the two phase XML translation machine described is not known within and is distinguished over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 1-14 and 19 are allowed.

### Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
